**Conscience Rights in Ontario**

*A Crucial Moment for Healthcare Professionals*

Over the last several years, doctors and healthcare professionals have been fighting to have their individual conscience rights recognized by both the Federal and Provincial governments. An Angus Reid poll last year found that 80% of Ontarians favour conscience rights legislation to protect healthcare providers from having to violate their conscience when caring for a patient.

**We are at a crucial moment in history when it comes to conscience rights and MAID (Medical Assistance in Dying) There is much to learn and we must act.**

Please visit [www.canadiansforconscience.ca/ontario](http://www.canadiansforconscience.ca/ontario) where you can send an email directly to the Ontario government and learn more about this critically important issue. The program will automatically send your response to the correct government officials.

Click on the following link to see a powerful video with testimonies from healthcare providers describing how they feel about the possibility of having to take part in MAID when it goes directly against their moral principles. [Make a Call for Conscience - YouTube](#)
